

Frisby Ridge Area

This is one of the two mountain areas that the Revelstoke Snowmobile Club has a management agreement on. It offers four groomed trails on your way up to the Cabin and then on to the alpine. To access this riding area turn North off Hwy # 1 just west of silver bridge at the lights.

Travel on west side road 8km to Frisby Parking lot which is located under the transmission powerlines. From the parking lot you can access Frisby Ridge or take Streeter Street over to Boulder Mtn.

The well marked and groomed trails will take you from the parking lot right to the highest view point on Frisby. From there you will ride some of the best tree riding or stay on ridge and head to the back end burn. This is a great mountain that offers family to expert riding, treed areas to open bowls.

Stop in at our newly built cabin and sign into the book before heading out onto ridge. Altitude 4500-6500 ft

FRISBY RIDGE GPS INFORMATION

- 12) CABIN 0 KM • N 51 05 05 • W 118 16 78
- 13) SUMMIT 2.5 KM • N 51 05 93 • W 118 16 70
- 14) TRAP LINE – CLOSED 6 KM • N 51 07 41 • W 118 17 32
- 15) NARROW RIDGE 8.25 KM • N 51 08 32 • W 118 17 09

- 22) END – CLIFFS 25 KM • N 51 15 01 • W 118 17 78

Snowmobile Closure

The Revelstoke Snowmobile Club promotes ‘Best operating practices in wildlife habitat.’ You are responsible to know where and when the closures are and to stay out of these areas. If wildlife is encountered on a designated trail, please refrain from approaching. Make every effort to stay as far away from wildlife as safely possible.

Boulder Mountain Area

This is Revelstoke’s premier Riding area. To access this riding area turn North off Hwy # 1 just west of silver bridge at lights. Travel on west side road 4 km to the Boulder parking lot. From the parking lot you can access Boulder or take Streeter Street over to Frisby Ridge.

From the two large parking lots you will travel over 50kms of groomed trails that lead into the Alpine. There are three main groomed trails heading up to the cabin. Boulder offers terrain for all riding abilities from open bowls to expert tree riding.

You will ride in our famous super and sugar bowls, drop into Kirkup Lakes and back to Turbo Hill. Be aware of high avalanche hazards on the expert terrain and remember it is your responsibility to check avalanche conditions before heading out.

Please be sure to stop in at the Boulder cabin which is located at the end of the Kirkup trail in the alpine meadow and sign in before heading past the cabin. Altitude 4000 – 7500ft
